

DevDash 2026: Submission Checklist

Track all submission requirements here before the deadline.

Functional Project

- ☒ Working prototype deployed and accessible
- ☒ Live URL: visapath-app.azurewebsites.net
- ☒ Built during the DevDash 2026 hackathon period
- ☒ Software only project (web application)

Project Description on Devpost

- ☒ Clear problem statement and motivation
- ☒ Explanation of the solution and how it works
- ☒ Technologies, tools, APIs, and frameworks used
- ☒ Team member roles and contributions
- ☒ Future scope / roadmap
- ☒ AI disclosure

Demonstration Video

- ☐ 2 to 5 minute video recorded
- ☐ Shows the working project (not just slides)
- ☐ Includes explanation of key features and user flow
- ☐ Uploaded to YouTube / Google Drive with public link
- ☐ Link added to Devpost and README

Suggested video flow:

1. (0:00 to 0:30) Problem statement: why international students need this
2. (0:30 to 1:30) Onboarding flow: fill out the form, show the loading animation
3. (1:30 to 3:00) Timeline walkthrough: expand cards, show risk alerts, show urgency colors
4. (3:00 to 3:30) AI Chat: ask an immigration question, show RAG grounded answer
5. (3:30 to 4:00) Document tracker + Tax guide: quick overview
6. (4:00 to 4:30) What-If simulator: change a variable, show timeline shift
7. (4:30 to 5:00) Architecture recap + future vision

Source Code / Repository

- ☒ GitHub repository link provided
- ☒ Setup / run instructions in README
- ☒ .env.example provided for environment variables
- ☒ Repository is public (or organizer access shared if private)

Presentation Material

- ☒ One page project brief: [PROJECT_BRIEF.md](#)
- ☒ Covers: problem, solution, architecture, and impact
- ☐ Export to PDF if required by submission form

Original Work

- ☒ Project is original work created during the hackathon
- ☒ Not previously published or submitted elsewhere
- ☒ AI tools used during development are disclosed (Claude Code, Gemini)

Team Information

- ☒ Team size complies with Devpost page rules
- ☒ All contributors listed accurately

Track and Category Selection

- ☐ Most relevant track selected on Devpost
- ☐ Check eligibility for multiple prizes (if allowed)

Compliance

- ☒ Submission complies with event rules and code of conduct
- ☒ Complies with Devpost terms of service
- ☒ AI generated content disclosed with models/services used

Pre-Submission Final Checks

- ☐ Test live demo URL: verify it loads and works end to end
- ☐ Test with a fresh account (register > onboard > timeline > chat)

- ☐ Verify demo video link is publicly accessible
- ☐ Verify GitHub repo link works (and is public or shared)
- ☐ Review Devpost description for typos and completeness
- ☐ Add demo video link to README.md
- ☐ Submit on Devpost before the deadline
